Docket No. 98N-1265  
Food and Drug Administration  
5600 Fishers Lane  
Rockville, MD. 20857

**I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.**

COMMENTS: This will deny us the ability to obtain natural hormones (chemically the same as in our bodies) & exact proper dosages, which non-compounding pharmacies cannot supply. This will limit consumers to the "one-size-fits-all" pharmaceuticals commercially manufactured by large drug companies. This is an outrage. We are entitled to specialized medicines. There is no good reason for this except increased profits for the large drug companies.
